

The Newcomer: Crystal Creek (Harlequin Superromance No. 940)

A virile mayor is stunned when a wealthy movie star offers to buy his tranquil town, but even more surprising is his passionate reaction to the pretty executive sent to work out the details. She, too, feels the attraction, but loyalty to her boss must take priority over matters of the heart or is that vice-versa? Although the hero is yummy and a secondary romance charming, the heroine's inflexibility weakens Margot Dalton's THE NEWCOMER (2).
