

The Road to Dune

Frank Herbert's *Dune* is widely known as the science fiction equivalent of *The Lord of the Rings*, and *The Road to Dune* is a companion work comparable to *The Silmarillion*, shedding light on and following the remarkable development of the bestselling science fiction novel of all time. Herein, the world's millions of *Dune* fans can now read--at long last--the unpublished chapters and scenes from *Dune* and *Dune Messiah*. *The Road to Dune* also includes the original correspondence between Frank Herbert and famed editor John W. Campbell, Jr.; excerpts from Herbert's correspondence during his years-long struggle to get his innovative work published; and the article *They Stopped the Moving Sands*, Herbert's original inspiration for *Dune*. *The Road to Dune* features newly discovered papers and manuscripts of Frank Herbert, and also *Spice Planet*, an original sixty-thousand-word short novel by Brian Herbert and Kevin J. Anderson, based on a detailed outline left by Frank Herbert. *The Road to Dune* is a treasure trove of essays, articles, and fiction that every reader of *Dune* will want to add to their shelf.
