

Undercover Texas

His most important mission brought him to Texas and reunited him with the son he never met. Black ops soldier Hunter Graham knew the rules: no family, no friends, no life outside the mission. But he never anticipated a woman like Erin Jamison. Two years ago, after a mission gone wrong, he met the brilliant scientist and they shared a week of passion before he vanished back into his secret life. Now, with Erin and their son the targets of an international terrorist plot, Hunter will go against his better judgment and break every agency rule to save the family he never knew he wanted. Coming out of hiding carries consequences far beyond this assignment, but he'll do anything to keep them safe, including kidnapping them.
